## Objective

Aspiring Software Development Engineer and AI Enthusiast with hands-on experience in building scalable web, android, and AI-powered applications and developing end-to-end software solutions. Proficient in object-oriented programming, databases, REST APIs, and full-stack development using modern technologies. Skilled in designing and deploying reliable, high-performance systems with strong foundations in data structures, version control, and problem-solving.

## Technical Skills

- **Programming Languages:** C, Java, Python, SQL
- **Frameworks & Libraries:** Java SpringBoot, Flask, React, NumPy, Pandas, React Native
- **Systems & MLOps:** Docker, Jenkins, GitHub Actions, CI/CD pipelines
- **Cloud:** Google Cloud Platform, Firebase
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Developer Tools:** VS Code, Eclipse, Jupyter, Git, Postman

## Experience

### ABHIMO Technologies Private Limited

July 2025 - September 2025

Software Engineer Intern

### Mindmatrix

February 2026 - May 2026

Android App Development Using Gen AI Intern

## Projects

### TITLE: BUSMATE

A smart travel safety application that keeps trusted friends and family updated throughout bus journey of the user.

- Designed a user-friendly mobile interface to improve travel convenience and safety.
- Implemented real-time tracking and notification sharing.

**Tech Stack:** React native expo, TypeScript, NodeJS, Firebase

**GitHub:** <https://github.com/Amritha0306/BUSMATE>

### TITLE: Smart Data Analysis

An intelligent data analysis platform for automated data processing, monitoring, and business insights.

- Implemented automated pipelines for data ingestion, cleaning, transformation, and reporting with the version control.
- Designed interactive KPI dashboards for real-time analytics and decision-making.

**Tech Stack:** React, Python, API endpoints DVC, MongoDB

**Link:** <https://smartdataanalysis.vercel.app/>

### TITLE: AI-Based Email Filtering and Notification System

An AI-powered email management platform that aggregates, categorizes, searches, and automates email responses across multiple accounts.

- Implemented real-time email synchronization, AI categorization, and automated email replies using Gemini API.
- Built responsive dashboards with advanced search, web hook notifications, and multi-account management.

**TechStack:** React, TypeScript, Node.js, Express.js, MongoDB, Elasticsearch, Tailwind CSS.

**GitHub:** <https://github.com/Amritha0306/outbox>

## Soft Skills

Problem Solving · Debugging · Leadership · Team Collaboration · Adaptability · Time Management

## Certifications

Java Full Stack Developer · Data Analytics · Cloud Computing · HTML5 · Node.js · AWS Cloud Foundations · Android Developer · DBMS Using SQL

## Leadership and Achievements

Contributed to planning and organizing college-level technical and cultural events · Gained interview experience by conducting interviews for more than 50 candidates at Alva's Pragathi 2025, Moodbidri · Published the project BUSMATE in International Journal of Emerging Technologies and Innovative Research (JETIR), Vol.12, Issue 7, July 2025

## Education

### Srinivas Institute of Technology

2022-2026

Bachelor of Engineering in Computer Science and Engineering - CGPA: 8.5

Mangalore, Karnataka

### Viveka Pre-University Collage

2020-2022

P.C.M.C - Percentage: 89.66

Udupi, Karnataka

### Government High School Manuru Padukare

2020

S.S.L.C - Percentage: 91.52

Udupi, Karnataka
